

Esraa Ibrahim

Full-Stack Developer | Backend .NET Engineer | Software Tester

Cairo, Egypt | +20 101 014 4768 | esraa.ibrahim9291@gmail.com | github.com/EsraaMIbrahim

PROFESSIONAL SUMMARY

Software Engineer completing a Post-Graduate Computer Science Diploma with hands-on experience in full-stack web development (.NET Core, C#, SQL Server, React) and Software Testing (STLC/SQA). Combines technical proficiency in scalable web architecture with strong analytical problem-solving and operational leadership from medical and quality control roles.

EDUCATION

Post-Graduate Diploma in Computer Science (GPA: 3.11) **Aug 2024 – Jul 2026**
FGSSR – Faculty of Graduate Studies for Statistical Research, Cairo University

- Core Curriculum: Operating Systems, Data Structures & Algorithms, Computer Architecture, System Analysis.

Post-Graduate Diploma in Bioinformatics (GPA: 3.6) **Aug 2023 – Jul 2024**
Nile University, Cairo

- Built genomic-sequence pipelines on Linux/Ubuntu using shell scripts and multiple-sequence alignment tools.

Pre-Master's Coursework in Biotechnology (GPA: 3.3) **Sep 2023 – Jun 2024**
Faculty of Science, Cairo University

Bachelor's Degree in Industrial Biotechnology (GPA: 3.2) **Jun 2019 – Jun 2023**
Faculty of Science, Tanta University

PROFESSIONAL EXPERIENCE

Software Tester Intern **Jul 2026 – Aug 2026**
Digital Egypt Pioneers Initiative (DEPI) – MCIT

- Executed functional and non-functional test cases, managed defect lifecycles in Jira, and applied Black-Box testing strategies.
- Performed database verification using SQL queries and API testing to validate backend response contracts.

Senior Medical Laboratory Chemist **Nov 2024 – Present**
Tahrir Branch, Cairo, Egypt

- Direct daily operational workflows, financial logs, and quality control with zero-tolerance error policies.
- Lead and mentor a cross-functional team, ensuring strict regulatory compliance and operational efficiency.

Microbiology Quality Control & R&D Trainee **Sep 2022**
Memphis Pharmaceutical & Chemical Industries (in collaboration with GSK)

- Completed 120 hours of hands-on training in current Good Manufacturing Practice (cGMP) and microbiological QC.

TECHNICAL SKILLS

- Backend Development:** C#, .NET Core Web API, ASP.NET Core, Python, SQL, R, Shell Scripting
- Frontend & Databases:** React.js, JavaScript, SQL Server, Data Normalization, Relational Database Design
- Testing & Methodologies:** SQA, STLC, SDLC, Manual Testing, Technical Documentation, Agile / Scrum, UML Design

TECHNICAL PROJECTS

Smart Pharmacy Management System | *Full-Stack Web Platform* **GitHub Repository**

- Engineered a scalable pharmacy platform using ASP.NET Core Web API, C#, SQL Server, and React.
- Implemented clean-architecture principles, a built-in discount engine, and automated drug expiry tracking.
- Integrated clinical drug interaction checks, WhatsApp notification pipelines, and responsive transaction views.

CERTIFICATIONS & COMPETITIONS

- **Software Testing & Freelancing Track:** Digital Egypt Pioneers Initiative (DEPI) **Jan 2026**
- **Certified Sustainable Development Trainer:** NIGSD & Ministry of Planning **May 2025**
- **Participant – 4th Egyptian Junior Researcher Competition (16th UGRF):** Nile University **Aug 2023**
- **4th Place Winner – 2nd Arab & Iraqi Universities Scientific Olympiad:** Univ. of Basrah **May 2023**
- **Enhancing Skills of Undergraduate Students (ESUS):** Tanta University **Apr 2023**
- **Participant – SOLE Season 9 National Biotechnology Competition:** Helwan University **Feb 2023**

VOLUNTEERING

Volunteer Cadre Trainee **Aug 2024**

Hayah Karima Volunteer Cadres Preparation Camp (with MCIT & Bibliotheca Alexandrina)

- Completed leadership, volunteer management, civic engagement, digital readiness, and sustainable social impact modules.

Field Operations & Community Support Volunteer | Local Election Observer **Dec 2023**

Hayah Karima Foundation

- Monitored electoral processes and voting procedures during the Egyptian Presidential Election 2023 in Gharbia Governorate.
- Coordinated field logistics, voter registration, accessibility support for elderly/disabled voters, and queue flow.

LANGUAGES

- **Arabic:** Native speaker
- **English:** Good proficiency
